Total Points (sum of the Condition, Amenity and Notable categories)	144
--	------------

Notes for 030

Location of Tree(s) on Site	Roadside berm
Owners' Name	ODC
Date of Inspection	6 November 08

PROPOSED BY: - Dave Williams

COMMENTS/REASON FOR PROPOSAL.

ASSESSORS' NOTES:

Threats.

Not much – perhaps major roadworks

Potential for new development nearby.

little

Suggested care and maintenance.

Remove ivy from stems, remove dead fronds every three to four years.

It is important to realise that this species is considered to be a weed by some authorities. Despite its stately shape and long history in the urban landscape, it can be invasive.
